AI CHRONA

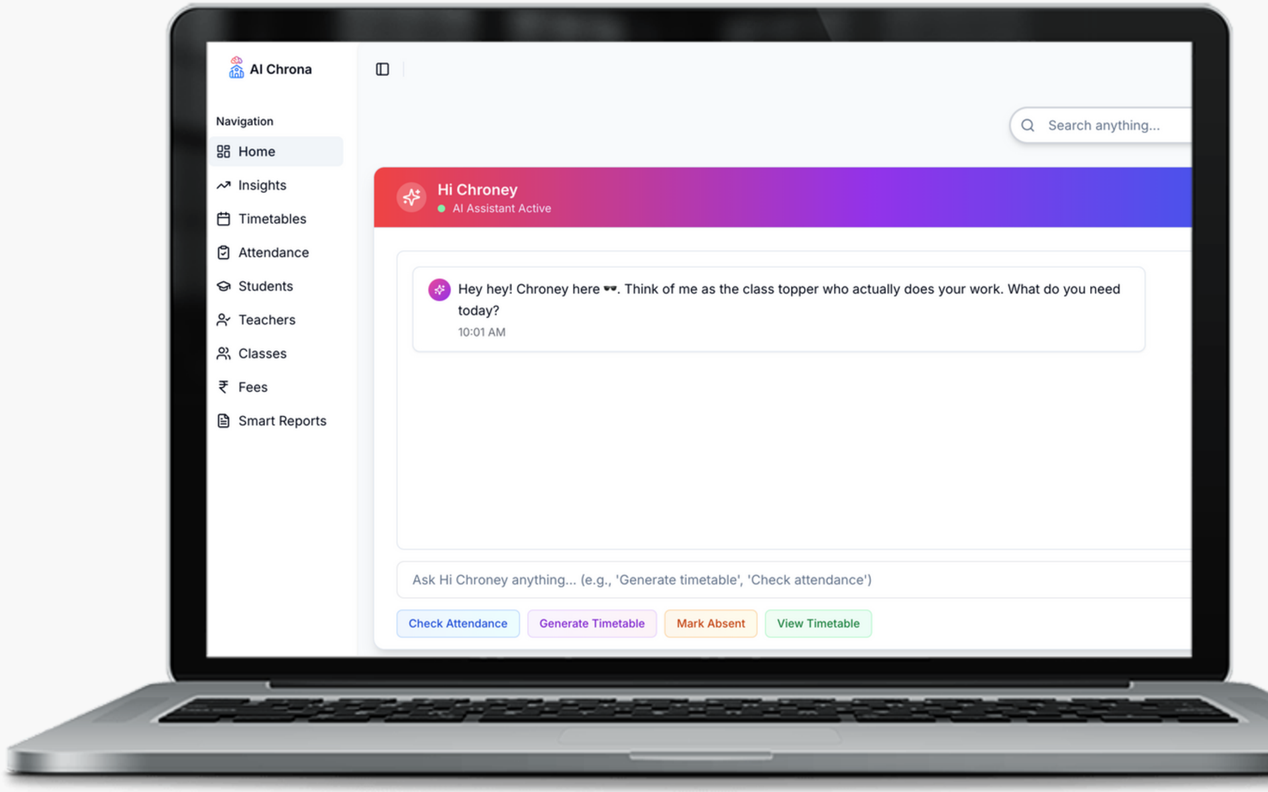

AI-Powered. Chat-Driven.
Built for Smarter Schools.

chrona.in

ABOUT AI CHRONA

AI Chrona is an **AI-powered**, **chat-based** School ERP that simplifies and automates every aspect of school management- from attendance and timetable to fees, communication, and analytics.

With its built-in AI assistant "**Chroney**", schools can manage operations through simple chat commands - making management faster, smarter, and error-free.

WHAT'S AI IN IT

1. AI Timetable Generator

Generate a complete school timetable in one click - optimized for subjects, teacher availability, and workload balance.

Saves hours of manual planning while ensuring zero conflicts.

2. Chroney Chat Assistant

Your AI-powered chat companion that handles everyday queries and tasks.

"Show today's attendance," "Send fee reminders," or "Share marks for Class 8A" — all through chat.

3. AI Teacher Planner

Automatically analyses teacher schedules to identify overloaded and underutilized teachers.

Helps management make smart staffing and hiring decisions as student strength increases.

4. AI-Based Substitution Engine

When a teacher is marked absent, AI Chrona auto-suggests substitutes using a multi-factor scoring model

Ensures seamless class coverage without manual intervention.

VISION & MISSION

VISION

To empower every school to become smart, efficient, and connected, where technology works silently in the background - letting educators focus on what truly matters: teaching and student growth.

MISSION

To simplify school management through AI-powered automation that:

- Reduces administrative workload
- Improves communication with parents
- Enhances teacher productivity
- Builds transparency and trust across the school ecosystem

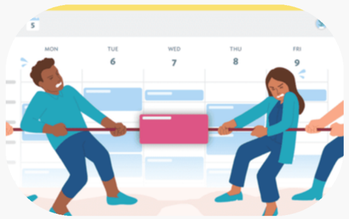

"AI Chrona — Making School Management Simple, Smart, and Seamless."

THE PROBLEM

Administrative Overload

Attendance, reports, and fee collection consume hours each day.

Timetable Chaos

Scheduling and substitutions often depend on guesswork, leading to conflicts and gaps.

Poor Communication

Important updates get lost in WhatsApp groups or paper circulars.

Lack of Insights

Schools collect data but struggle to turn it into decisions.

Teacher Burnout

Uneven workloads and no visibility into staff capacity.

Parent Disconnect

Parents aren’t always up to date on school happenings or student progress.

OUR SOLUTION

AI Chrona uses Artificial Intelligence to automate and simplify every aspect of school management.

Chat-Based Assistant (Chroney): Manage attendance, reports, and communication through simple chat commands- saving time and reducing errors.

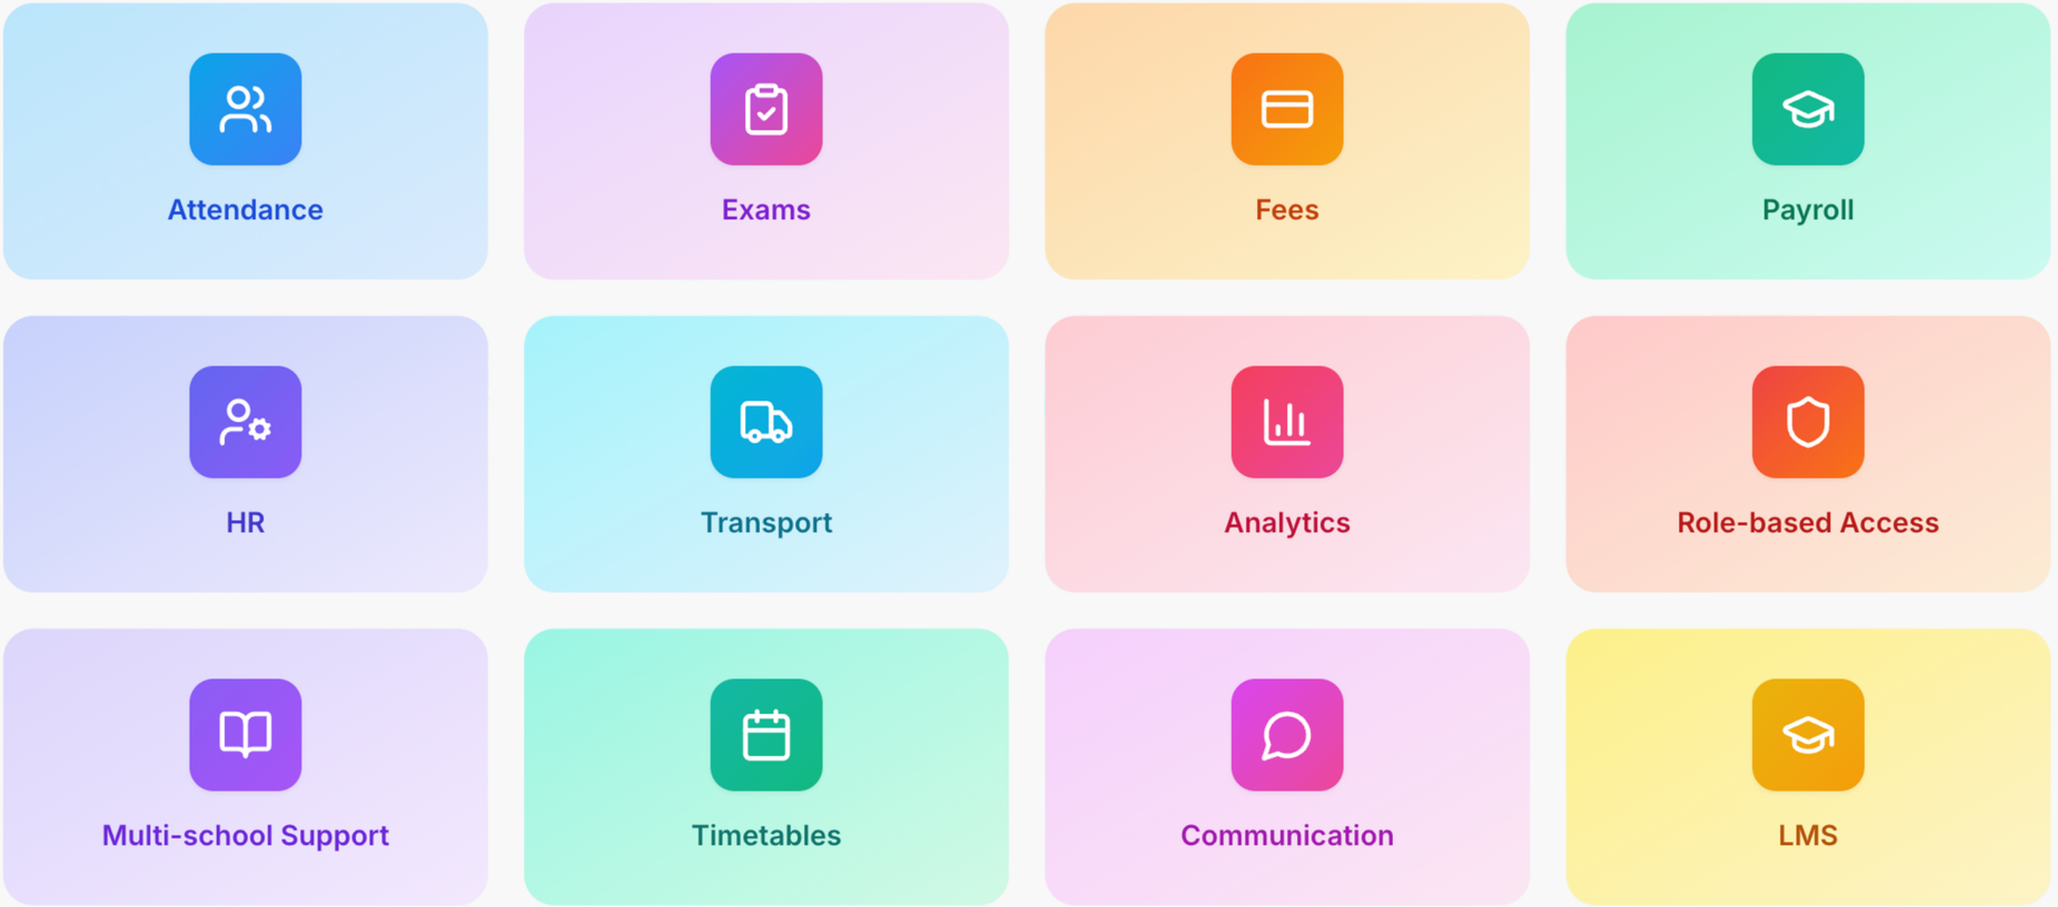

AI Timetable Generator & Substitution Engine: Automatically create and update timetables, ensuring smooth class schedules even during teacher absences.

AI Teacher Planner: Analyzes staff workload, identifies underutilized teachers, and helps management make informed hiring or class allocation decisions.

Parent App & Social Media Module: Instantly share updates, photos, videos, and announcements to keep parents informed and engaged.

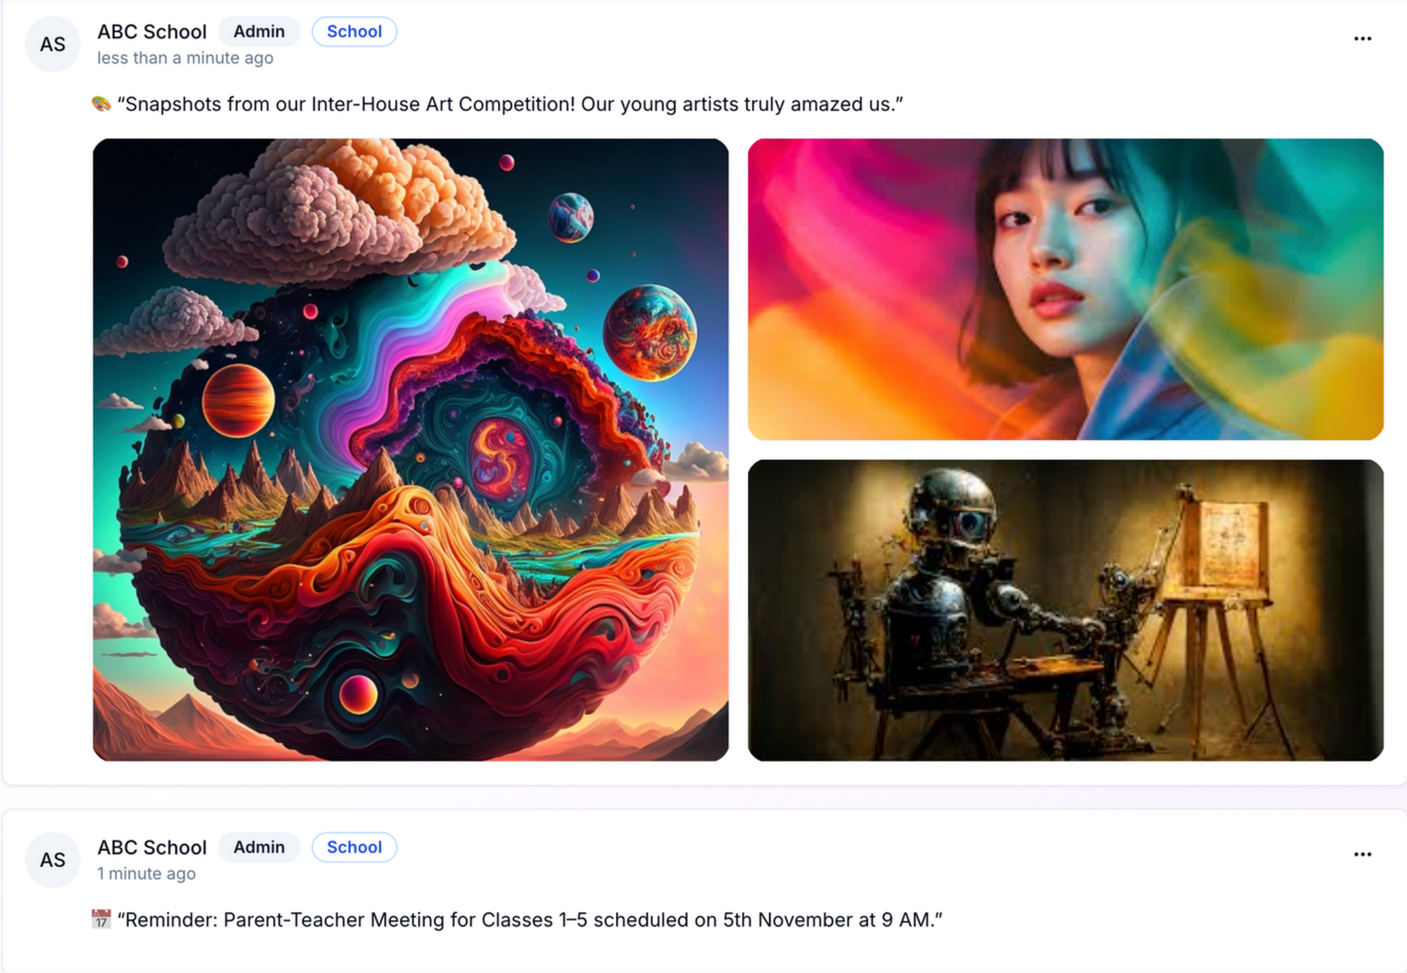

AI Analytics Dashboard: Deliver predictive insights on attendance, performance, and fee collection for smarter, data-driven decisions.

ALL-IN-ONE SCHOOL MANAGEMENT SUITE

TECHNOLOGY & SECURITY

AI Chrona is built on a robust, scalable, and secure cloud infrastructure - powered by advanced AI models from OpenAI

AI Engine

- Powered by OpenAI's ChatGPT model, enabling natural, human-like chat interactions for school tasks and automation.
- Custom-trained with education-specific workflows for attendance, timetable planning, and communication.

Architecture

- Modular microservices architecture ensuring scalability and quick deployment across multiple schools.
- Hosted on secure Indian cloud servers with 99.9% uptime.

Data Security

- End-to-end AES-256 encryption for all user data.
- Fully GDPR-compliant with secure access controls and periodic audits.
- Role-based access for Admins, Teachers, Parents, and Students.

Accessibility

- Responsive web & mobile access for teachers, students, and administrators.
- Seamless integration with payment gateways, biometric attendance systems, whatsapp and SMS APIs.

PILOTS PROGRAMS & EARLY ADOPTERS

AI Chrona is currently onboarding schools and educational groups for pilot programs to experience the power of AI-driven school management.

Highlights:

- Early discussions with schools such as Jaypee Public School, Somerville School, Greater Valley School in Delhi NCR
- Demo sessions conducted with admins and principals.
- Targeting 15 pilot schools by Q1 2026.

🤝 **Join as a Pilot School**

Be among the first to experience:

- AI-based timetable generation & smart substitution
- Chat-driven school management with Chroney
- Real-time parent communication & analytics

TRANSFORM YOUR SCHOOL INTO AN INTELLIGENT ECOSYSTEM.
